

Change is good! Or in this case, change is very good...SecureIT Services will soon have a new look and enhanced features!

SecureITSM
Complete. Computer. Protection.

SecureIT Services is about to undergo a major overhaul! The SecureIT Services family of products will become significantly enhanced to provide optimal performance.

What does this mean for you? A better product, therefore increased peace of mind that your computer is being properly protected. More specifically, the SecureIT technology will be upgraded to include the following...

- Improved anti-virus integration with Sourcefire's ClamAV engine
- New malicious software prevention features
- Significantly smaller download package
- Improved management console with exciting new look and feel
- Beginning in March, monthly reports will be sent according to registration date rather than the first of each month

As you can see from the following screen shot, the new management console will be more intuitive for easier customer navigation...

Management Console - SecureIT Plus [Customer ID:EU3117720]

SecureIT Management Console

The SecureIT Management Console allows you to set custom schedules and run immediate system checks. You can use any of the tabs above for the specific actions or click on one of the shortcuts below:

- View SecureIT Status (requires Internet connection)
- Run Security Scans
- Component Settings

Close

Notice also the current and future task bars below. The SecureIT Services icon will change from a gold padlock to a white cross...

How will you replace the old SecureIT product with the new improved one?

This update will happen automatically, without you having to lift a finger. The only thing you will be prompted to do after the update occurs is reboot your computer. That's it!

If you have any questions, or would like more detailed information regarding how your version of SecureIT has changed, contact Hartington Telecommunications at 402-254-3901. Thank you, and enjoy the new SecureIT product!
